

Customer Bulletin

4

Welcome to issue 1 of Speed Frame's Customer Bulletin. The purpose of these bulletins is to ensure that all our customers are well informed and ahead of their customers and competitors with regards product developments and updates direct from Speed Frame.

These bulletins will cover all aspects of product updates including technical changes, product specifications including hardware or furniture changes, together with ad hoc announcements or product catalogue amends.

We will shortly supply a file for the safe keeping of these bulletins, so please keep them close to your catalogue for ongoing and future reference.

Base Profile Colours for Foiled Products With so many colours soon to be available to end customers it was felt necessary to keep some element of standardisation with regards to the base profile colour onto which the coloured foil will be fabricated.

The chart below details where white or dark profile will be used in the foiling process.

Please speak to the Marketing Department if you wish to receive additional copies of this bulletin for your sales and order processing staff. **Please note that all foils available contain a 'wood grain' effect.**
